PROFESSIONAL PROFILE

I work as an agile scrum master with relative insight in front end website development. I have worked in many squads in reference with my career path.

I studied Computer Science as an undergraduate course in the Department of Computer Science in the University of Ghana. Gaining core organizational skills from my experiences with the several organizations I have worked in, I possess technical and human skills, which I believe would be useful in the sustainability of routine and non-routine projects in our work together.

TECHNICAL SKILLS

- Microsoft Productivity Tools (MS Excel, Word, Outlook, Teams, Project, Skype).
- HTML, CSS, JavaScript/ES6 (ReactJS)
- Atlassian Agile Project Management Tools (Jira, Trello, Confluence, Bitbucket)
- Version Control/ Source Code Management with Git.
- Continuous Integration/ Continuous Delivery (Jenkins)
- Linux

SOFT SKILLS

- User Requirements Gathering
- Task Management
- Thorough understanding of agile software development life cycle.
- Stakeholder Engagement
